Afternoon Extension Classes

Afternoon Extension Classes were added to enrich your child's school day with extra-curricular activities, designed to promote creativity, exploration, and cooperative learning. These classes are designed for children to learn through hands-on activities, using learning environments outside of the classroom. The extended day will help to prepare older children for a full day of school in Kindergarten.

Children are given time for free play with their friends outside (weather permitting) or in the classroom. After lunch, the rest of the afternoon is filled with hands-on learning experiences to build critical thinking skills, creative exploration, enhance social and emotional intelligence, and practice large and small gross motor skills.

Children must be completely potty-trained to attend extension classes.

Dismissal

Afternoon Extension Classes are dismissed at 2:00 pm. **Late fees will be charged after 2:10 pm.**

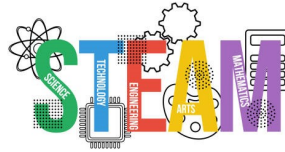

Lunch

Please pack your child's lunch and label the *outside* of the lunch bag/box with your child's *full name*. We cannot provide refrigeration or reheating for meals. Please clearly label the lunch box if your child's lunch contains peanut/nut products. We will provide drinking water for meals.

Classes

STEAM:

STEAM focuses on Science, Technology, Engineering, Arts, and Math through a variety of experiments and projects. The students work together

to question, hypothesize, experiment, observe, and reach a conclusion.

MAGIC:

MAGIC focuses on creativity and social/emotional development, as well as cooperative play in a variety of learning environments. With an emphasis on imagination, each class will explore new concepts and themes through games, art, music, and more.
